

Appl. No. 10/011,860

Amdt.AF dated May 6, 2005

Reply to Final Office Action of March 9, 2005

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1-48. (Cancelled).

49. (Previously Presented) A method for supplying power for an implantable cardioverter-defibrillator for subcutaneous positioning between the third rib and the twelfth rib and using a lead system that does not directly contact a patient's heart or reside in the intrathoracic blood vessels and for providing anti-bradycardia pacing energy to the heart, the method comprising:

generating anti-bradycardia pacing energy;

storing the anti-bradycardia pacing energy; and

delivering the anti-bradycardia pacing energy to the patient's heart;

wherein the anti-bradycardia pacing energy comprises a monophasic waveform having a peak voltage that is between approximately 25 volts and approximately 50 volts.

50. (Previously Presented) The method of claim 55, wherein the anti-bradycardia pacing energy comprises a monophasic waveform having a peak voltage that is between approximately .1 volts and approximately 100 volts.

51. (Previously Presented) The method of claim 50, wherein the anti-bradycardia pacing energy comprises a monophasic waveform having a peak voltage that is between approximately .1 volts and approximately 25 volts.

52. (Previously Presented) The method of claim 50, wherein the anti-bradycardia pacing energy comprises a monophasic waveform having a peak voltage that is between approximately 25 volts and approximately 50 volts.
